

Kibújás vagy bebújás...?

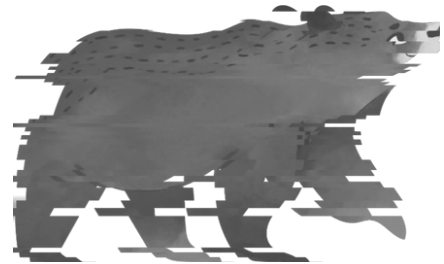

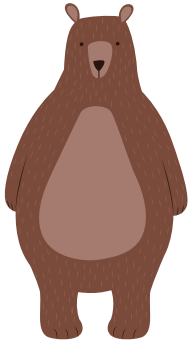

Hol a medve?

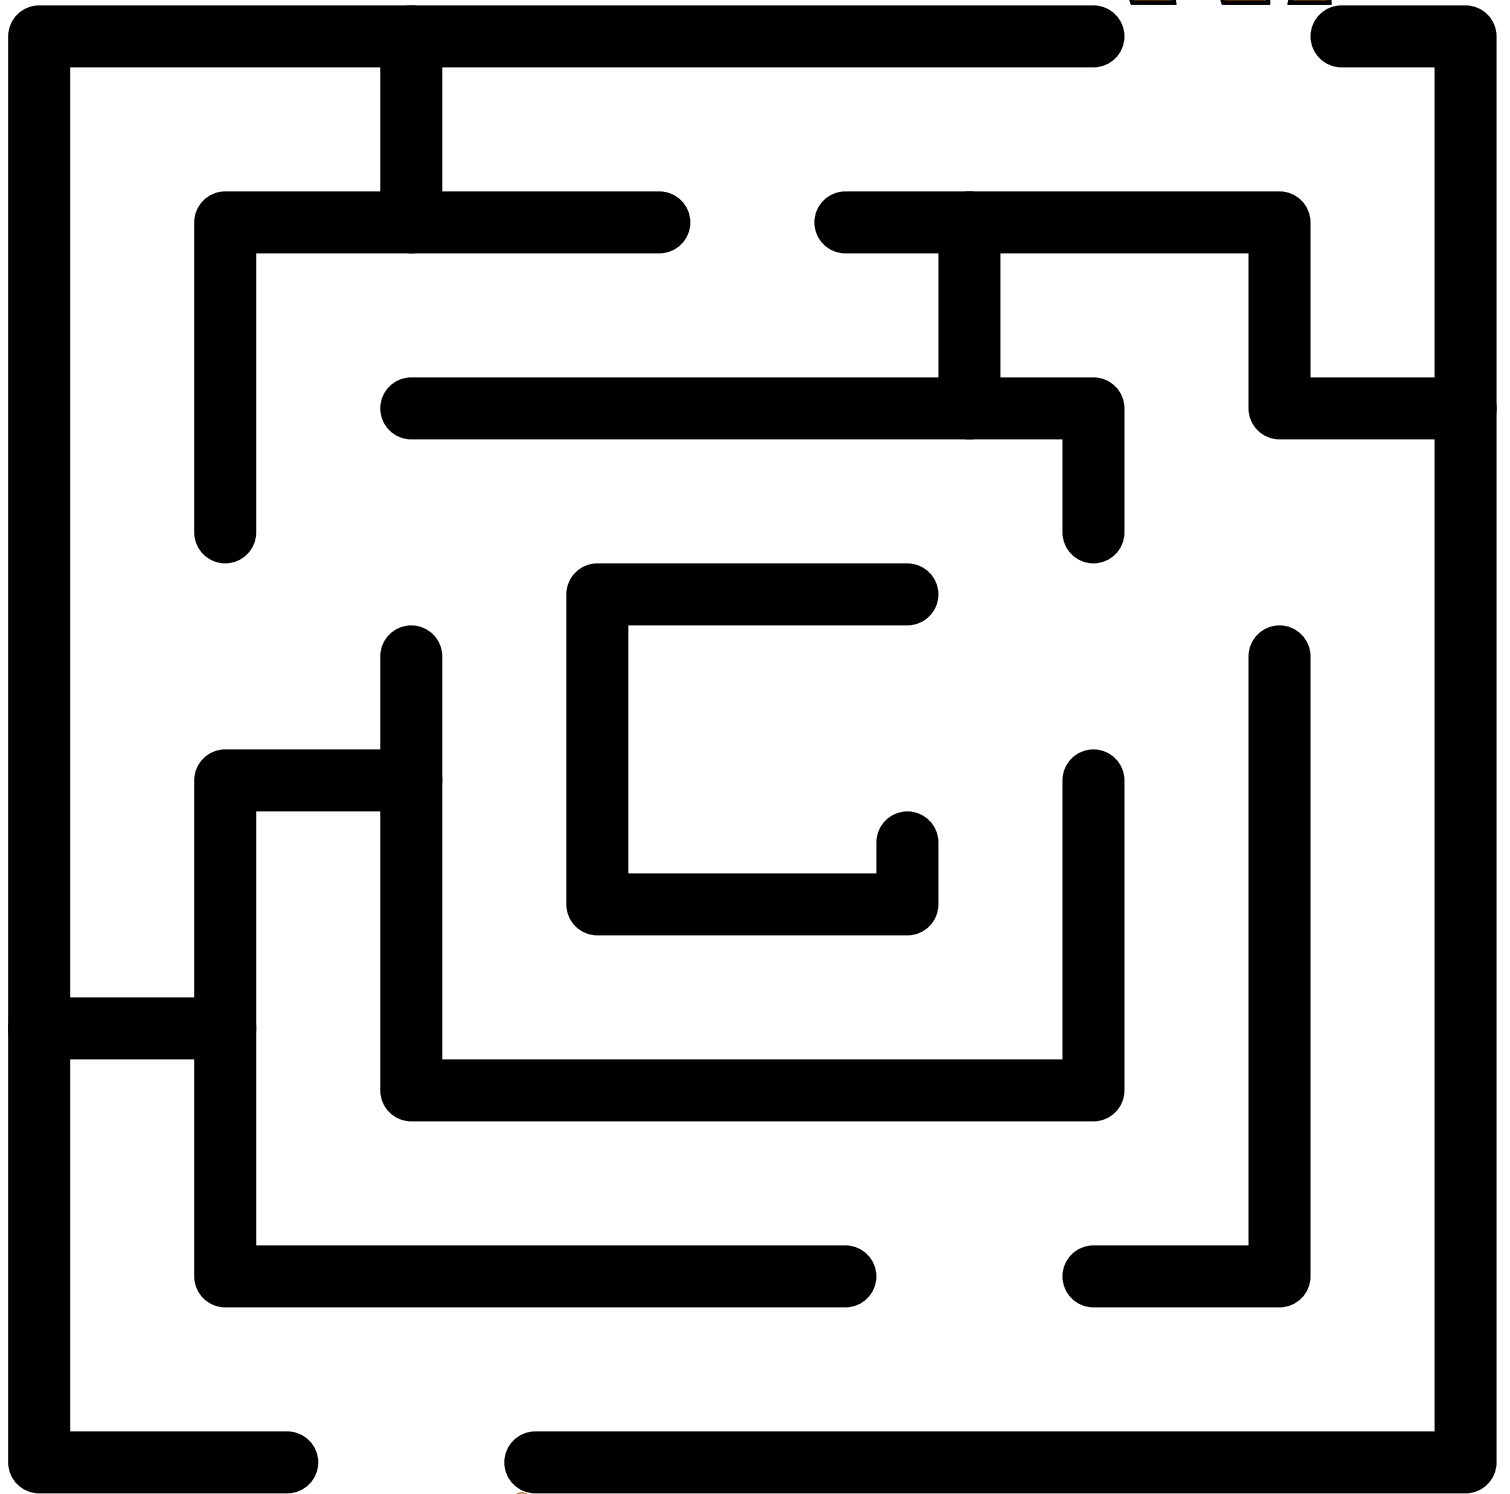

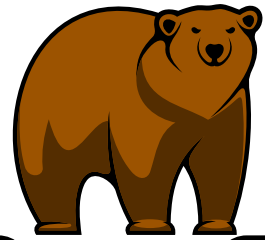

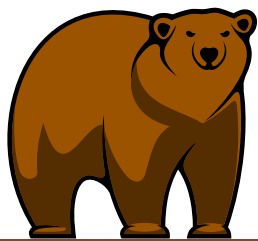

Vágd ki a képeket, és helyezd el a medvéket úgy,
ahogy az előző oldalon látod!

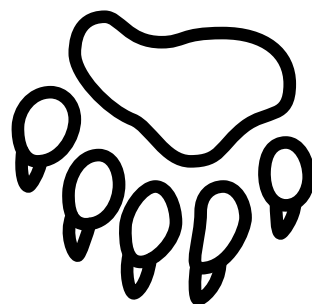

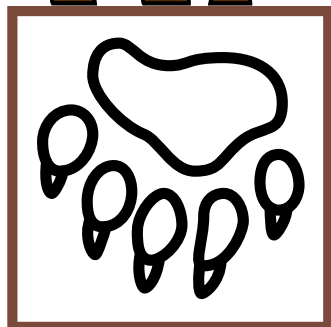

Segíts a medvének eljutni a
mézhez!

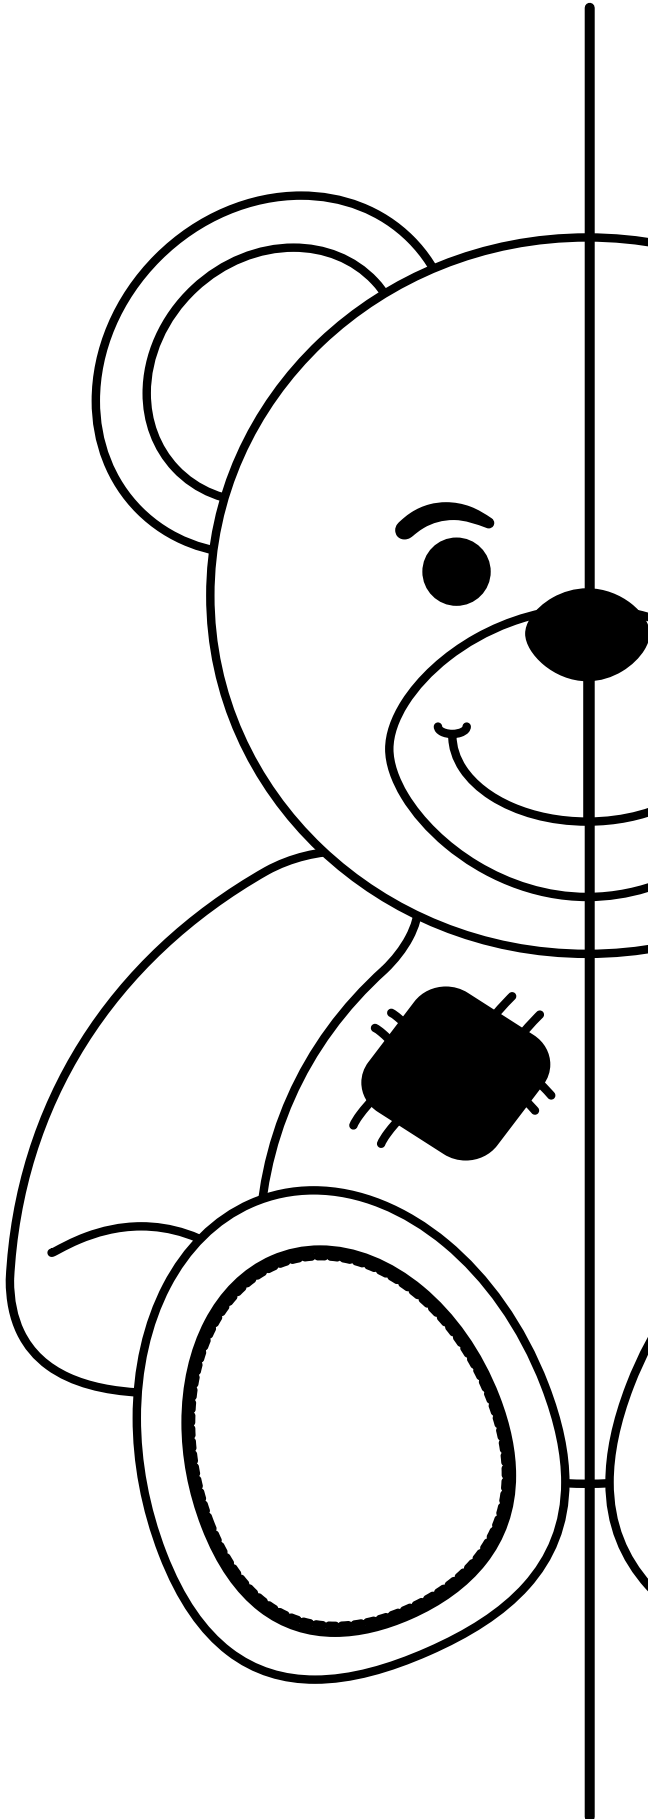

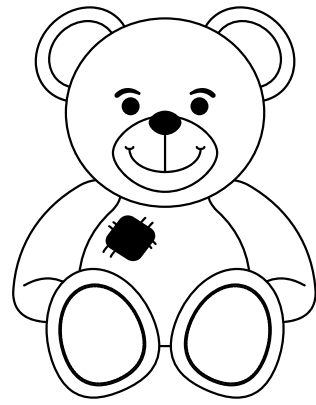

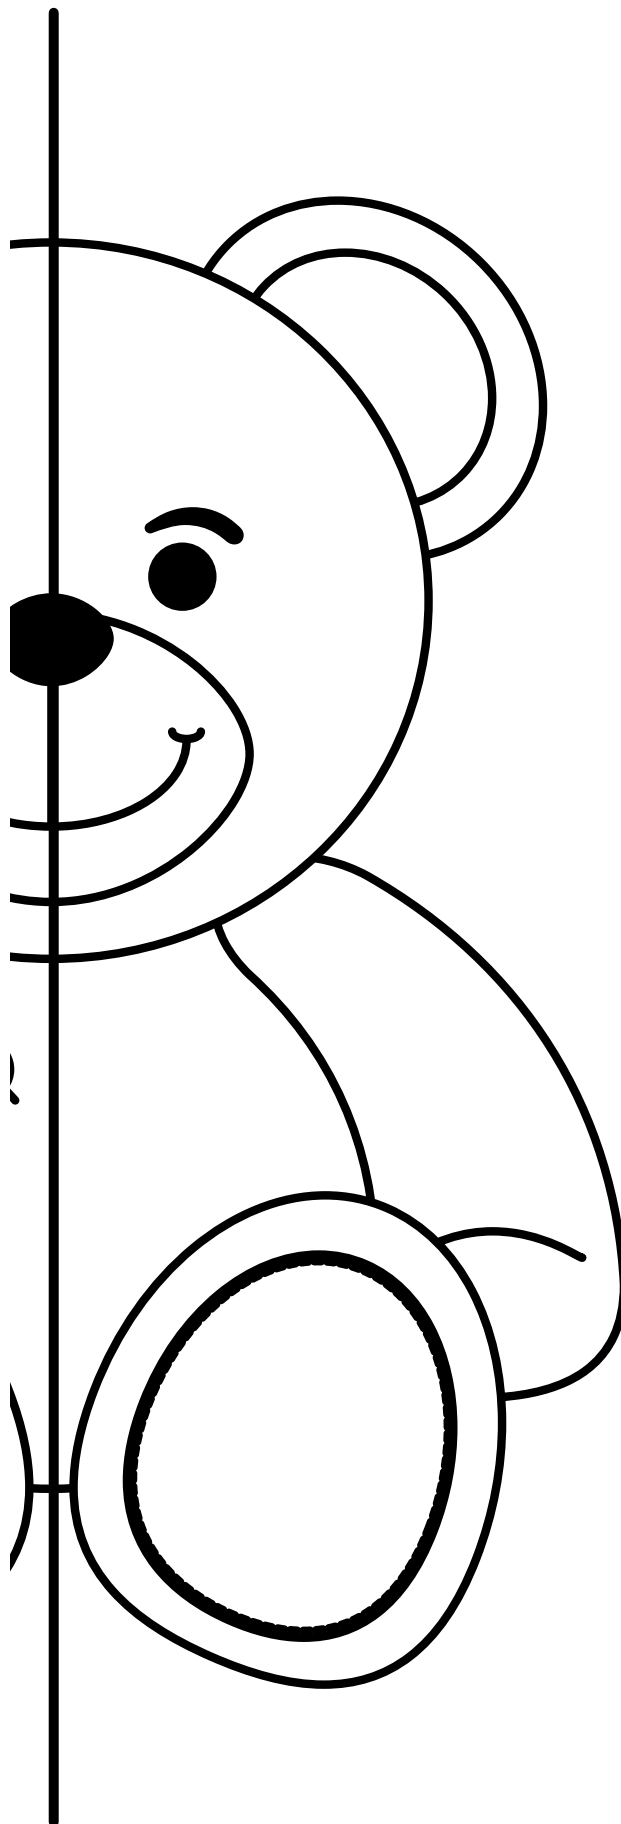

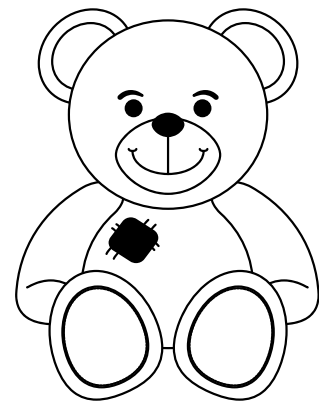

A medve mézet szeretne enni. Csak lefelé mutató
tappancsokra léphetsz!

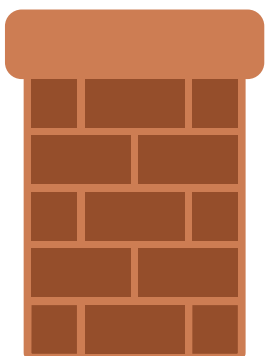

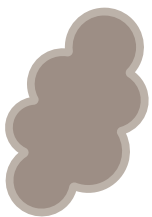

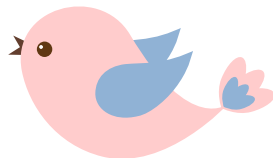

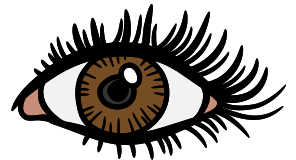

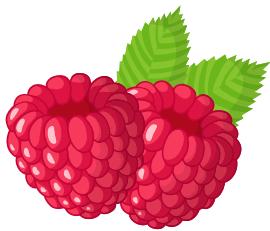

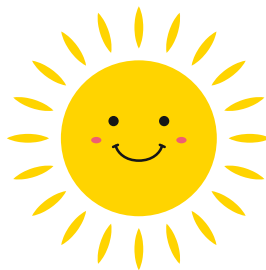

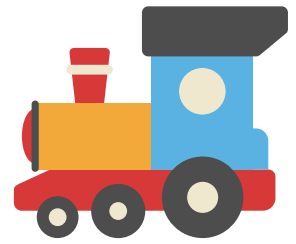

Egészítsd ki a képet, rajzold meg a macit!

Egészítsd ki a képet, rajzold meg a macit!
(balkezeseknek)

Mondd ki hangosan a “medve” szót! Mit hallasz a szó elején? Nevezd meg a képeket! Melyik szóban hallod ugyanezt a hangot? Karikázd be!

Szavak: medve, telefon, mozdony, málna, nap, méz, madár, malom, szem, kémény, majom, pillangó

Melyikben hol hallod a “m” hangot? Színezd ki a megfelelő négyzetet! (elején, benne, végén)

Ha a medvét látod, tapsolj, ha a málnát, dobbants
a lábaddal! Sorban haladj balról jobbra!

Tedd az azonos oldali kezed mutatóujját a legfelső körre! Haladj fentről lefelé! Ha sárgára lépsz, a másik kezed mutatóujjával a mézre mutass, ha pirosra, a málnára, ha barnára, a medvére!

Számolj! Rajzolj annyit pöttyöt a négyzetekbe, ahányat számoltál!
Tapsold is le! Melyikből van legtöbb? Melyikből van legkevesebb?

Rajzold meg a macifejet!
